Project Information

Project Title

Number of Trail Miles

County Trail #57 Bridge Rehabilitation (Roxbury) #2

Breaker Box DNR Bridge

Project Description

- For maintenance, include a concise statement of the type of maintenance activities and the type of grooming equipment used.
- For major bridge rehabilitation, describe the proposed construction items to rehabilitate the bridge.
- For trail rehabilitation, describe the repair and renovation activities necessary to improve the trail for user safety.
- For development, describe development activities and structures to be constructed.
- For development of intensive use areas; describe the need and expected use and method of operating and maintaining the facility.
- For Motorized Stewardship describe project **and source of matching funds**, narrative must include the source of the matching funds.
- Minimum Useful Life Agreement is required to be submitted with the signed grant agreement.

Bridge Rehabilitation: Replace existing bridge with a movable bridge that meets all DNR Bridge Guidelines. The snowmobile trail currently utilizes old field road crossing (see pictures). The bridges have deteriorated to a point where they are becoming unsafe for both trail users and maintenance equipment. The proposed new bridge will sit on floating pads for stabilization vs. abutments. The landowners have signed a 10-year lease for the site. If the bridge is not considered permanent and can be moved if the trail moves in the future. Dane County Parks and Public Works will oversee the project.

Estimated Cost

Maintenance	Acquisition	Insurance	Development	Bridge Rehab.	Trail Rehab.	Total Estimated Cost
				21,700 30,000		21,700 30,000
